Realising cross-border charging in Europe

ENIO is proud to invite you to the TECHNISCHE UNIVERSITÄT WIEN on 19 November. Be part of the solution for 'Smart and Cross-border Charging'.

The road to seamless cross-border charging is a bumpy yet exciting one. We invite you to join the ride on 19 November, when we kick off a new European project connecting various pilots and projects in multiple countries. You will also be part of the official launch of the third phase in electric charging, marking the next step towards a fully connected charging network that actively responds to international energy supply and demand. EV drivers will be able to charge their cars with renewable energy, such as solar and wind power. Together we can fulfill sustainable development goals and improve air quality thanks to these new perspectives. We are honoured to invite you to participate and exchange knowledge on smart and cross-border charging!

What to expect?

09:00 Coffee & Registration
10:00 Start of plenary session 1

Energy systems in the context of e-mobility

Univ.-Prof. Dr.-Ing. Wolfgang GAWLIK – University Professor for Energy Systems (TU Wien)

The future drives electric. Rollout of a pan-European charging network

MMag. Alexander DECKER – MD of Comforgcharge

The e-paradox. Fewer fossil power plants owing to more e-mobility

Ing. Mag. Friedrich VOGEL – MD of ENIO

Demand-oriented, grid-friendly and production-optimized charging. Energy and load management

DI Markus LITZBAUER – Energy expert ENIO

11:20 Coffee break
11:40 Start of plenary session 2
Managed infrastructure. Fundament of the second automotive revolution

DI Dr. Franz SCHODL – MD of ENIO
evRoaming4EU project. Smart and cross-border charging

Roland FERWERDA – MD of NKL
Project leader "evRoaming4EU"

Ceremonial launch of our smart and connected mission!

How does electricity get into the car? From cable tangle to plug-in "at the push of a button"

Ing. Mag. Friedrich VOGEL - MD ENIO

12:45 High speed info & Lunch
Questions, answers and discussions at our information islands

14:00 Wrap-up & Relaxed ending

The event will be in German.

If you have not registered yet, [please do so here](#). Limited seats available.

We are looking forward to meeting you there.

Best regards,

ENIO GmbH
